SUMMARY

I am a student at FPT University, majoring in Software Engineering. I have knowledge about Software Development Life Cycle (SDLC), OOP and Data Structure and Algorithms. I am also interested in learning about new technologies, frameworks and currently learning NodeJS, ExpressJS and .NET.

EXPERIENCE

BIRD ACCOMMODATION SYSTEM   **01/2023 - Present**
Software Development Project
A mini project of a system for bird accommodation. Using NodeJS, ExpressJS and VueJS. The project currently still in progress.

PLANT SHOP   **09/2022 - 11/2022**
Java Web Assignment
A web project for my subject as school. A web for selling plants. I am using Java Servlet technology including JSP, JSTL as well as implementing MVC2 pattern to build this project. The project is already on my GitHub repository.

EDUCATION

FPT University – HCMC Campus   **2020 - 2024**
Bachelor of Information Technology
GPA: 7.75

CERTIFICATES

Core Java
Java Enterprise Edition
Web Design for Everybody: Basics of Web Development & Coding
Software Development Lifecycle
CertNexus Certified Ethical Emerging Technologist
